PRODUCT DESCRIPTION

COMPETITION® is an acid free sports drink for high energy needs, made out of a large mix of carbohydrates with different glycemic Index and electrolytes, free from added fructose. Thanks to its special composition and its neutral and very light flavouring, Competition® is also optimally appropriate in high concentrations and intensities.

Enriched with the electrolytes sodium, calcium, magnesium, potassium and chloride. Calcium plays an important role in the energy metabolism and in association with magnesium and potassium it contributes to normal muscle function.

Appropriate to support the physical performance during endurance exercise as well as for rehydration of the fluid losses after physical activities.

ADVANTAGES

- **Free of acid, it is a pH neutral competition drink**
- **free from added fructose**
- **Hypotonic also with a dosage of 100g/liter**
- **High molecular starch hydrolysates with a very low osmolarity**
- **Isomaltulose (glucose + fructose) and trehalose (glucose + fructose)**

UTILISATION

Sports drink for the highest energy needs and demands. Also suitable for carboloading.

As part of a varied and balanced diet and a healthy lifestyle.

INGREDIENTS

Starch hydrolysates (**barley** [free from gluten], rice) 25%, glucose, maltodextrin, sucrose, isomaltulose 8.5%, trehalose 6%, minerals (sodium citrate, calcium lactate, magnesium citrate, sodium chloride, potassium citrate), peppermint extract 1%.

FLAVOURS/PACKAGING
