

DIRECTORY MANUAL FOR OPERATION OF ALUMINIUM FOLDABLE TABLE

- ① Open the Carry Bag and Lay out the Component parts of your Folding Table:
Frame (b) Slatted top sections (a)
2 End Panels (c) & (d)

- ② Extend Frame until square base is formed by the four legs. Then press out the locker.

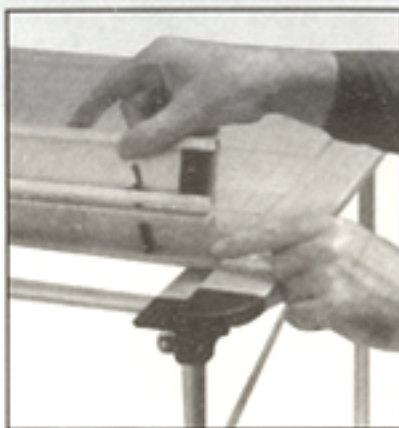

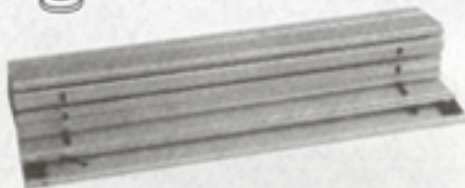

- ③ Put up two rails, draw them until side rivets on the rail meet the corner plastic. Then slot firmly into brackets.

- ④ Take End Panels (c & d) and place across top ends of frame. Slot firmly into place.

- ⑤ Take Top Slatted Panels (a) and place between fixed End panels (c & d). Roll out to full length of Table Frame. Push fixing nipples into place.

- ⑥ Your Folding Table is now ready for use.

Used Sensibly and treated with care. Please note the following:

- Do not subject the table to undue weight; never sit on it.
- Never use undue force when erecting or dismantling.
- Stow away in the bag provided and store in a dry place.
