## Highlights

### AirflowMax technology

AirflowMax technology maximizes the airflow, allowing the dustbag to unfold uniformly, so you get high suction power, even as the bag fills-up!

### TriActive+ nozzle

The TriActive+ nozzle applies 3 cleaning actions in one go: 1) It gently opens the carpet with its specially designed soleplate to remove the dust deep down. 2) It sucks up big bits with its larger opening at the front. 3) It sweeps up the dust and dirt alongside furniture and walls with its two side brushes.

### 4L dust capacity

The specially designed 4L dust chamber allows you to make optimal use of your dust bag, so you can clean for longer.

### AirSeal with EPA10

EPA10 filter and AirSeal capture the finest dust before the air is blown out for a dust-free environment and clean, healthy air.

### Extra long ergonomic grip

This ergonomically shaped grip is convenient in use. Its extra long design gives you farther reach, so you can easily clean hard to reach places.

### S-bag Classic Long Performance

This new Philips synthetic dust bag has been developed to provide long lasting vacuum cleaner performance, i.e. a high level of suction power and maximum filtration, up to the moment the dust bag is full and ready for disposal.
