

**D**

Die Bedienungsanleitung sorgfältig lesen und aufbewahren. Überprüfe den Inhalt des Kartons auf Vollständigkeit und eventuelle Transportschäden.

**Sicherheitshinweise:**  
Das Spielzeug ist nicht für Kinder unter 3 Jahren geeignet wegen verschluckbarer Kleinteile und funktionsbedingter Klemmgefahr! Der Transformator ist kein Spielzeug. Die Anschlüsse des Trafos nicht kurzschließen.  
**WARNING!** Dieses Spielzeug enthält Magnete oder magnetische Bestandteile. Magnete, die im menschlichen Körper einander oder einen metallischen Gegenstand anziehen, können schwere oder tödliche Verletzungen verursachen. Ziehen Sie sofort einen Arzt zu Rate, wenn Magnete verschluckt oder eingeatmet wurden.  
**Hinweis an die Eltern:** Den Träfo regelmäßig auf Schäden an der Leitung, am Stecker oder am Gehäuse untersuchen. Spielzeug nur mit empfohlenen Transformatoren betreiben. Bei einem Schaden darf der Transformator nicht mehr verwendet werden. Die Rennbahn nur mit einem Transformator betreiben. Bei längeren Spielpausen wird empfohlen, den Transformator vom Stromnetz zu trennen. Gehäuse von Träfo und Geschwindigkeitsreglern nicht öffnen.

Die Bahn und Fahrzeuge sind regelmäßig auf Schäden an Leitungen, Steckern und Gehäusen zu überprüfen. Defekte Teile auswechseln.  
Die Autorennbahn ist nicht für den Betrieb im Freien oder in Nassräumen geeignet. Flüssigkeiten fernhalten. Keine Metallteile auf die Bahn legen, um Kurzschlüsse zu vermeiden. Die Bahn nicht in unmittelbarer Nähe empfindlicher Gegenstände aufstellen, da aus der Piste geschleuderte Fahrzeuge Beschädigungen verursachen können.

Teppichboden ist keine geeignete Aufbauunterlage.

Vor der Reinigung den Netzstecker ziehen. Keine Lösungsmittel oder Chemikalien zur Reinigung verwenden. Bei Nichtgebrauch die Bahn staubgeschützt und trocken aufbewahren, am besten im Originalkarton.  
Schleiferenden auffächern. Nur die Schleiferenden sollten die Fahrbahn berühren. Schleifer regelmäßig von Staub und Schmutz reinigen. Überprüfe regelmäßig den Zustand der Schleifer, da schlecht eingestellte, bzw. verschmutzte Schleifer die Fahrleistung beeinträchtigen.

Fahrzeuge nicht bei laufendem Motor festhalten oder blockieren, dadurch kann es zu Überhitzung und Motorschäden kommen. Die Fahrzeuge können durch zu schnelles Fahren von der Bahn abkommen. Dies ist keine Fehlfunktion der Fahrzeuge sondern wird durch zu schnelles Fahren verursacht. Deshalb unbedingt darauf achten, dass vor Kurven und im Looping (falls im Set enthalten) rechtzeitig die Geschwindigkeit reduziert wird.

Sollte die Strecke einen Looping enthalten, so sollte vor Verlassen des Loopings der Turbo Knopf am Handregler losgelassen werden, damit das Fahrzeug nach dem Looping nicht zu schnell ist (s. Seite 2).  
Autorennbahn nicht in Gesicht- oder Augenhöhe betreiben, da Verletzungsgefahr durch herausgeschleuderte Fahrzeuge besteht. Im Spielbetrieb können sich Fahrzeugkleinteile, wie Spoiler oder Spiegel, welche aufgrund der Originaltreue so nachgebildet werden müssen, eventuell lösen oder brechen. Um dies zu vermeiden, haben Sie die Möglichkeit, diese durch Entfernen vor dem Spielbetrieb zu schützen.

Alle Carrera Ersatzteile im Web Shop erhältlich:

**Technische Daten:**  
Ausgangsspannung Spielzeug-transformator: 14,8V  $\equiv$  2 x 5,2 A

Dieses Produkt ist mit dem Symbol für die selektive Entsorgung von elektrischer Ausrüstung versehen (WEEE). Das heißt, dass dieses Produkt der EU Direktive 2002/96/EC entsprechend entsorgt werden muss, um die entstehenden Umweltschäden zu minimieren. Weitere Informationen erhalten Sie bei Ihrer lokalen oder regionalen Behörde. Aus diesem selektiven Entsorgungsprozess ausgeschlossene elektronische Produkte stellen wegen der Präsenz gefährlicher Substanzen eine Gefahr für die Umwelt und die Gesundheit dar.

**GB**

Please read this manual carefully and keep it for future reference. Please check the contents of the package to make sure that it is complete and that no damage has occurred during transportation.

**Safety Notices:**  
Not suitable for children under 3 years because of small parts or functional clamping danger. The transformer is not a toy. Avoid short circuits by keeping the opposite poles away from each other.  
**WARNING!** This toy contains magnets or magnetic components. Magnets sticking together or becoming attached to a metallic object inside the human body can cause serious or fatal injury. Seek immediate medical help if magnets are swallowed or inhaled.

Check the track, vehicles, and parts periodically for damage. Defective parts should be repaired or replaced. The set has been designed for indoor use only. Keep liquid substances away from all electrical connections. Keep metal objects away from the track as they can cause short circuits. Vehicles travelling at high speed can fly off the track, therefore keep the track away from delicate objects to avoid damaging them.

It is not recommended to set the track up on carpet floors.

Always remove the electrical plug before cleaning or servicing the track. Never use cleaning agents or water. For best results, store the track in the original packaging when not in use.

Contacts' ends need to be brushed. It is only the ends which should touch the track. Keep contact brushes clean of dust and dirt. Check them regularly as contact brushes being badly adjusted or dirty affect road performance.

Don't lock or hold the cars while the engine is on. This may lead to overheating and engine breakdown.

Driving too fast may cause the cars veering off the track. This is not a malfunctioning of the cars but a reaction on driving at very high speed. For this reason it is extremely important to slow down before bends or in a loop (in case it is included in the set).

In case the track comes with a loop, the turbo-button at the speed regulator has to be released before the loop is left. This prevents the car from getting too fast after the loop (see page 2).

Do not operate race track at face- or eye-level – risk of injury due to cars being catapulted off the track. During operation small car parts as spoilers or mirrors may get off or brake due to being original detailed parts of the car model. To avoid this it is possible to remove them before operation.

All Carrera spare parts are available in the webshop at: [www.carrera-toys.com/shop](http://www.carrera-toys.com/shop)

**Technical Information:**  
Transformer voltage for this toy: 14,8V  $\equiv$  2 x 5,2 A

This device is marked by «selective sort through» symbol related to sort through domestic, electric and electronic, waste. This means the product must be treated by a specialized «sorting/collecting» system in accordance with european directive 2002/96/CE, to reduce the impact upon environment. For more precise information, please contact your local administration. Electronic product which are not going thru special collecting, are potentially dangerous for environment and human health, because of dangerous substance.

Lire attentivement le mode d'emploi et le conserver. Vérifiez bien qu'il ne manque aucune pièce et que rien n'ait été endommagé durant le transport.

**Précautions d'emploi :**  
Le jouet ne convient pas aux enfants de moins de 3 ans à cause de petites pièces risquant d'être avalées et risque de blessure par des bords coupants. Le transformateur n'est pas un jouet. Ne pas court-circuiter les raccords des transformateurs.  
**ATTENTION !** Ce jouet contient des aimants ou des composants magnétiques. Des aimants collés les uns aux autres ou à un objet métallique à l'intérieur du corps humain peuvent entraîner des lésions graves ou mortelles. En cas d'ingestion ou d'inhalation d'aimants, demandez immédiatement une assistance médicale.

Ter atentamente as instruções de serviço e guardá-las. Controlar se o conteúdo da caixa está completo e se apresenta eventuais danos de transporte.

**Indicações de segurança:**  
O brinquedo não é apropriado para crianças menores que 3 anos de idade devido ao perigo de peças pequenas serem engolidas e ao perigo de partes do corpo ficarem presas. O transformador não é brinquedo. As ligações dos transformadores não devem ser curto-circuitadas.  
**ATENÇÃO!** Este brinquedo contém imanes ou componentes magnéticos. Os imanes que se atraem ou aderem a um objecto metálico no interior do corpo humano podem causar lesões graves ou até mortais. Procurar assistência médica imediata em caso de ingestão ou inalação de imanes.
